Reliability in rescue operations

SAURUS – top expertise

The Sammutin Oy company, a manufacturer of Saurus fire fighting and rescue vehicles, is part of the Kiitokori Special Vehicle Group. Sammutin Oy was founded in 1948 and since 1982 the company has focused its activities on the designing, manufacturing and marketing of Saurus fire and rescue vehicles. There are over 1000 Saurus units in operation all round the world.

A fundamental principle at Sammutin Oy is high product quality. This is backed up by an efficient maintenance and spares service which continues for years after the actual sale.
